Web Developer

SUMMARY

MERN Stack Developer with 3 years of experience building full stack web applications. Skilled in React, Node.js, Express, and MongoDB with hands on experience in API development, dashboards, CRM modules, and production-level issue handling.

WORK EXPERIENCE

Software Developer L2, Truworth Health Technology   **Feb 2023 – Present**
- Developed CRM and config panel modules including OPD, OPS, ticketing, user/role management.
- Built REST APIs using Node.js/Express and integrated them with React components.
- Worked with Moment, Speakeasy (2FA), React DnD, Ant Design, Microsoft Graph.
- Improved dashboard performance, fixed production bugs, and delivered sprint-based features.

Software Developer Intern, Truworth Health Technology   **Nov 2022 - Feb-2023**
- Built frontend features in React and fixed UI bugs.
- Developed backend routes using Express.
- Integrated REST APIs with frontend using Axios.

Projects

1. CRM Panel
- Worked on OPD, OPS, ticketing system, role management, AI adjudication flow, rollback status, and scripts.

2. Config Panel
Created OPD configuration modules and contributed to production bug fixes.

3. Personal Project – Config Panel & CRM System
- Built a config panel to create clients and manage settings
- Added client login linked to CRM.
- Implemented dynamic routes based on business type.
